A. Introduction

This report provides geographic detail (e.g. by community) on the 1998-99 expenditures of the Government of the Northwest Territories (GNWT). This information is provided as a supplement to the GNWT Annual Public Accounts, which provide expenditure information by department and activity. Not all expenditure detail can be allocated to the community level in a meaningful manner, however, where ever it is possible to make a community level allocation, this report does so. The allocations are based on the geographic area that the expenditure most closely relates to benefits.

The GNWT first undertook this geographic expenditure allocation using 1996-97 expenditure data. This allocation was performed to assist in determining the funding requirements of the two new territories created through Division of the NWT (effective April 1, 1999). The allocation process is governed by the Financial Administration Manual Directive 703-2. This Directive requires all departments to identify which communities are the most direct beneficiary of every expenditure made by the GNWT. This requirement also extends to obtaining the geographic detail from grant or contribution recipients who may further disburse such funding (e.g. regional education boards). As not all expenditures can be allocated to the community level in a meaningful way, allocations are also made to regional, territorial, and corporate levels. These levels are defined as follows:

- **Community Level Expenditures** are expenditures that are required for the delivery of programs and services that are specific to a single community. For example, Municipal Operating Assistance provided by the Department of Municipal and Community Affairs to the community of Fort Providence.
- **Regional Level Expenditures** are expenditures that are required for the delivery of programs and services provided for the benefit of residents of a specific region. For example, the Department of Education, Culture and Employment's operating contribution to the South Slave Divisional Education Council.
- **Territorial Level Expenditures** are expenditures that are required for the delivery of programs and services provided for the benefit of all the residents of the Northwest Territories. For example, expenditures for operating the Yellowknife Correctional Facility.

- **Corporate Level Expenditures** are expenditures required for the headquarters and regional management structure of the GNWT.

The gathering of geographic expenditure data from an expenditure benefit point of view was obviously a major departure from the GNWT's existing way of tracking expenditures and thus involved the training of hundreds of staff responsible for the coding of over four million transactions annually.

This new way of recording expenditures was utilized during the Division process, where the GNWT undertook a review of the 1996-97 operation and maintenance (O and M) expenditures with the objective of allocating the expenditures between the two new territories on an east/west basis only.

From the results of the review, it was recognized that the data provided some useful insights and a different perspective on where the GNWT spends money. For that reason, the Western Coalition, a group of aboriginal, civic, territorial, and business leaders that represented the western territory during the Division process, requested a report that would further allocate the **western** expenditures to the community level. The resulting report, called the 1996-97 Geographic Tracking of Expenditures - Western Community Data Report, received a great deal of positive feedback from not only the Western Coalition but other aboriginal and political organizations, as well as, the general public.

B. Purpose

Because of the great interest generated by the 1996-97 Geographic Expenditure Report and recognizing the vital role the information could play in current and future Self Government negotiations, the GNWT made a commitment to continue tracking and reporting expenditures by geographic levels. The objective of this report is to ensure the GNWT meets this commitment.

When interpreting and using the information contained in this report, readers must be aware of the following limitations:

Introduction

1. Of the total Western Community Expenditure allocation of \$384 million, over 57%, or \$220 million, were expenditures originally made at the regional or territorial level that were subsequently broken down to the community level using department allocation methodologies and assumptions.
2. The allocation of territorial and regional expenditures to the community level was done, to a large extent, for illustrative purposes and does not mean that the expenditures could be reasonably segregated at the community level for management and operational purposes.

C. 1998-99 Western Expenditure Data - A Summary of Results

The 1998-99 O and M expenditures at the western community, western regional, territorial and corporate level were as follows:

Western Community Expenditures	Western Regional Expenditures	Territorial Program Expenditures	Corporate Expenditures
383,820,430	103,459,805	21,261,858	238,227,842

1999-2000 Expenditures by Category After Departmental Adjustments

Highlights

- Total Western Program Expenditures amount to over \$508 million (community, regional and territorial). These expenditures were spent in the following areas:
 - \$347 million (68%) on social programs.
 - \$ 99 million (20%) on resource development and management programs.
 - \$ 62 million (12%) on government infrastructure.
- The allocation of over \$220 million (57%) to the Western Community Expenditures was determined based on departmental methodologies and assumptions used to allocate regional and territorial programs.
- Over 90% (\$344 million) of the Western Community Expenditures is comprised of twenty major programs. These programs are listed in Section F, Item 8.
- Total per capita program spending in 1998-99 was \$12,369 compared to \$11,430 in 1997-98, an increase of approximately 8%. The highest per capita program spending was \$20,823, in the community of Colville Lake. The lowest was \$6,040, in Yellowknife.
- Corporate expenditures increased by approximately 16% from \$206 million in 1997-98 to \$238 million in 1998-99.
- The following chart will illustrates the changes in the geographic categories from 1997-98 to 1998-99.

Expenditures by Category

D. Western Expenditure Data - The Process

As mentioned earlier, the recording of expenditures into the four geographic categories involved the extensive retraining of departmental staff. This is an ongoing process and requires extensive reviews and analysis to determine whether departments have allocated expenditures properly. Several steps are required to ensure the accuracy of departmental allocations and appropriateness of the methodologies used by the departments to further allocate program expenditures when required. Summaries of these processes are as follows:

Step 1 - A Review of the 1998-99 O and M Expenditures

The GNWT's financial transactions are recorded in the Financial Information System (FIS). Policies and procedures have been developed and coding has been added to FIS to ensure departments allocate each transaction to one of the four geographic categories. For the 1998-99 fiscal year, according to FIS, expenditures were allocated as follows:

Western Community Expenditures	Western Regional Expenditures	Western Territorial Program Expenditures	Corporate Expenditures
281,917,330	170,375,096	122,794,970	206,884,774

An extensive review of these allocations is conducted by the Financial Management Board Secretariat (FMBS) to determine their accuracy. This involves a close examination and analysis of every O and M expenditure transaction for each department.

Why such a detailed review? At first glance the above allocations appear to be very reasonable. But, as was stated earlier, the tracking of transactions from an expenditure benefit point of view was a major departure from how departments historically tracked their expenditures and thus, allocation errors were expected to be found. Some of the common errors found during the review include:

- The allocation of expenditures to the major centres of, Inuvik, Fort Simpson, Fort Smith and especially Yellowknife.
- Allocating corporate expenditures associated with Headquarters staff and offices to Yellowknife instead of the corporate category.
- Allocating expenditures for regional programs to a specific community that does not solely benefit from the program.
- The allocation of a territorial program to a specific community or to the corporate category.

After the FMBS review, the 1998-99 O and M expenditure allocations were adjusted as follows:

Western Community Expenditures	Western Regional Expenditures	Territorial Program Expenditures	Corporate Expenditures
163,710,438	263,362,782	150,111,321	213,403,769

Step 2 - Departmental Allocations

From the results obtained from Step 1, the FMBS provided departments with a list of their regional and territorial programs and instructed them to develop methodologies and assumptions for allocating these program expenditures to the community level. Specifically departments were asked to:

- Allocate territorial program expenditures between the eastern and western arctic.
- Allocate the western territorial portion to the community level.
- Allocate the western regional expenditures to the community level.
- Provide an explanation on the methodologies and assumptions used to make the above allocations.

Introduction

- Provide an explanation on why a territorial or western regional program cannot be allocated to the community level.
- Provide a brief description of each territorial and western regional program.

Step 3 - Review of the Departmental Allocations

The FMBS reviewed the departmental methodologies for reasonableness, and the adjustments obtained from this review were incorporated with the results of the review conducted in Step 1. These adjustments include:

1. The reclassification of expenditures in the western regional category to the corporate category.

The definition of corporate that is provided in the Financial Administration Manual is different from the definition used during the financial costing exercises that determined the base expenditure levels for the two territories after March 31, 1999.

Using the division exercise definition resulted in the reallocation of \$21 million in regional administration expenditures from the western regional category to the corporate expenditure category.

2. Departmental developed community allocation methodologies provided for the allocation of \$136 million from the western regional expenditure category to the western community level.

3. Departmental developed community allocation methodologies provided for the allocation of \$82 million from the territorial expenditure category to the western community level.

4. Departmental developed regional allocation methodologies provided for the allocation of \$4 million from the territorial expenditure category to the western regional classification level.

5. In some cases, departments indicated that there are no statistics available within the department that would provide a breakdown of western regional program expenditures to the community level or any methodologies that could be developed to provide a meaningful allocation to the community level. Consequently, the expenditures were determined to be unallocatable and left in the western regional expenditure category. Examples of some of the programs include:

- Forest Management \$38.4 million
- Aurora College \$20.8 million
- Highway Operations \$16.1 million
- Arctic A Airports (excluding Yellowknife) \$ 4.2 million
- Ferry Operations \$ 3.6 million

6. In some cases, departments indicated that there are no statistics available within the department that would provide a breakdown of territorial program expenditures to either the community level or the western regional level.

Departments also indicated that no methodologies could be developed that would provide a meaningful allocation to the community level or western regional level. Consequently, the expenditures were determined to be unallocatable and left in the territorial expenditure category, which totaled \$21.3 million. Examples of some of the programs include:

- NWT Development Corporation \$6.1 million
- Yellowknife Airport \$2.7 million
- WCB Hunters and Trappers Claims \$1.4 million

The following table summarizes the effect of the above adjustments on the four geographic expenditure categories.

	Western Community Expenditures	Western Regional Expenditures	Territorial Program Expenditures	Corporate Expenditures
Expenditures per FIS	281,917,330	170,375,096	122,794,970	206,884,774
Step 1 adjustments	(118,206,892)	92,987,686	27,316,350	6,518,995
1998-99 Final Expenditures	163,710,438	263,362,782	150,111,321	213,403,769
Step 2 and Step 3 adjustments	220,109,992	(159,902,977)	(128,849,462)	25,227,842
Revised 1998-99 Final Expenditures	383,820,430	103,459,805	21,261,858	238,631,611

Introduction

Step 4 - Final Departmental Review and Sign-off

Once the 1998-99 expenditures were finalized, the data from the 1997-98 report was incorporated for comparison purposes. The combined data was sent back to the departments to:

- Ensure all departmental adjustments were incorporated into the data.
- Review the 1997-98 data again and confirm that the amounts reported are in the 1998-99 format to ensure consistency between the two years.
- Review the 1997-98 unallocated programs and apply any new methodologies developed for the 1998-99 expenditures to allocate these programs to the community level.
- Obtain Deputy Minister approval.

F. Department Summaries

A significant component of the data included in this report results from methodologies used by the departments to allocate, where possible, western regional and territorial programs to the community level. The information in this section of the report provides expenditure data by department and includes:

1. Summaries of the department's 1998-99 final expenditures by geographic expenditure category.
2. An itemization of adjustments made to the 1998-99 final expenditures.
3. A brief description of major programs and methodologies used to allocated expenditures to the various categories.
4. A summary of the department's western community, western regional and territorial programs expenditure data.
5. Western community level expenditure data. Communities are grouped into one of six areas as follows:

Major Centres

Fort Smith
Yellowknife/Ndilo
Hay River
Fort Simpson
Inuvik

Deh Cho

Fort Providence
Hay River Reserve
Jean Marie River
Nahanni Butte
Fort Liard
Wrigley
Trout Lake
Kakisa

South Slave

Fort Resolution
Lutsel K'e
Enterprise

Sahtu

Norman Wells
Tulita
Fort Good Hope
Deline
Colville Lake

North Slave

Dettah
Wha Ti
Rae Lakes
Rae/Edzo
Snare Lake

Beaufort/Delta

Aklavik
Fort McPherson
Tsiigehtchic
Sachs Harbour
Holman
Paulatuk
Tuktoyuktuk

Item	Community	Regional	Western Total	Corporate	Territorial	Nunavut Territory
1998-1999 Final Expenditures	160,000.00	960,100.80	1,120,100.80	12,837,652.77	0.00	0.00
Revised 1997-1998 Final Expenditures	0.00	819,638.30	819,638.30	10,242,522.13	0.00	0.00
Percentage Change	100.00%	17.14%	36.66%	25.34%	0.00%	0.00%

Descriptions of Major Programs and Allocation Methodologies

- **Members constituency related expenses**

Salaries, wages, benefits paid to the Members of the Legislative Assembly (MLA) and expenses incurred by an MLA in fulfilling his or her mandate of meeting with constituents to determine their needs. The types of expenses that can be incurred by an MLA are listed in Schedule B of the Legislative Assembly and Executive Council Act.

All indemnities paid to an MLA (salaries, benefits and allowances) were reclassified to corporate. Special indemnities paid to an MLA who is a Cabinet Minister and the indemnity paid to the Premier are not included in this program.

- **Remuneration for constituency assistance**

An MLA is allowed to hire an office assistant for either an office located in their constituency or for the office provided in the Legislative Assembly building. The individual is an employee of the MLA and takes all directions from the MLA.

Expenditures include either, salaries and wages for an office assistance or in some cases an MLA may only obtain the services of an individual or firm to assist them with a specific project throughout his or her term and elect not to have a full-time assistant.

- **Western identity celebrations**

Funding provided to community organizations to help with costs incurred for celebrations related to the creation of the Nunavut Territory.

The amount that has not been allocated represents resources provided to the Special Committee on Western Identity in order to capture the significantly changed landscape and culture of the new Northwest Territories that would be created after the creation the Nunavut Territory.

Explanation of significant variance from the 1997-98 Report

Community Expenditures

New was funding provided to community organizations for Western Identity Celebrations.

In 1998-99, a Special Committee on Western Identity was established in order to capture the significantly changed landscape and culture of the new Northwest Territories that would be created after the creation the Nunavut Territory.

Regional Expenditures

The increase is mainly attributed to an increase in the base salary provided to a constituency assistance from \$27,000 to \$35,000.

Corporate Expenditures

Corporate expenditures were over \$2.6 million higher in 1998-99 for the following reasons:

- An unanticipated increase in legal fees for Committees. Actual expenditures incurred for legal fees were \$1.5 million higher than projected.
- The initial set-up costs for the Office of the Language Commissioner for the West. This Office is responsible for ensuring the rights, status, and privileges of each of the official languages of the NWT are adhered to.
- A new position that was created for Research and Information.
- Higher costs incurred for Division Planning.

Descriptions of major programs and allocation methodologies

- WOMEN'S INITIATIVE GRANTS**

Funding provided to community, regional and territorial organizations for projects that enhance the status of women and increase public awareness and understanding of women's concerns and issues.

Territorial organizations include the Status of Women's Council and the Native Women's Association. The grants provided to these organizations were for programs that benefited the entire region.

- NATIVE WOMEN'S ASSOCIATION**

Operational funding provided to the Association to support its efforts to enhance the status of women and increase public awareness and understanding of women's concerns and issues.

The Association provides services that benefit the entire Western Territory. These services can not be allocated to the community level. A similar organization exists in the Nunavut Territory.

- TERRITORIAL EXPENDITURES NOT ALLOCATED**

NWT Status of Women's Council

This is the operational funding provided to the organization located in Yellowknife, to support its efforts to enhance the status of women and increase public awareness and understanding of women's concerns and issues. The services provided by the Council benefit both territories and can not be allocated.

Public Utilities Board

The Board is an independent regulatory agency responsible for the regulation of the energy utilities in the NWT. The Board derives its authority from the Public Utilities Act.

The main function of the Board is to protect interest by establishing rates that are just and reasonable to the consumer, while at the same time, allowing the utilities the opportunity to earn a fair rate of return.

Women's Initiative Grants

Contributions provided for projects that enhance the status of women and increase public awareness and understanding of women's concerns and issues.

Organizations that received funding during the year include; the NWT Training Centre, the NWT Status of Women's Council and the YWCA.

Explanation of significant variances from the 1997-98 report

Community Expenditures

The decrease in community level expenditures from the previous year is result of more funds for Women's Initiative Grants being provided to organizations located in the Nunavut Territory.

Territorial Expenditures

Territorial expenditures rose slightly due to one-time funding received by the NWT Status of Women's Council in 1998-99 of \$80,000 to facilitate the hosting of two conferences. These conferences were held to address a number of issues related to the overall development of women's issues, including; cultural and language development; increased political participation; health and wellness; family counseling; development of cottage industries; and women and wellness.

This increase was partially offset by a \$70,000 decrease for the Public Utilities Board due to reduced activity. The number of rate reviews declined from the previous year.

Executive Offices

Corporate Expenditures

Corporate expenditures increased by over \$1 million. This increase is mainly attributed to two factors:

- Corporate Human Resource Services was transferred from the Financial Management Board Secretariat to the Executive Offices during the year. This transfer increased departmental expenditures by approximately \$606,000.
- Higher than expected expenditures incurred for Employee Leave and Termination Benefits that increased expenditures by \$405,000.

Descriptions Of Major Programs And Allocation Methodologies

- **ABORIGINAL ORGANIZATIONS - SPECIAL EVENTS**

Funding provided to community aboriginal organizations for special events like National Aboriginal Days. Contributions are also provided to regional/territorial organizations for Annual General Assemblies, as follows:

South Slave Metis Tribal Council	\$ 5,000.00
Lutsel K'e Dene Band	5,000.00
Yellowknives Dene First Nation	5,000.00
North Slave Metis Alliance	5,000.00
Deh Cho First Nation	5,000.00
Dene Nation	10,000.00
Metis Nation	<u>5,000.00</u>
	<u>\$40,000.00</u>

- **GRANT TO THE METIS NATION**

Core funding provided to the Metis Nation for day-to-day operations.

There are no statistics available that would enable the department to develop a methodology that could be used to determine a meaningful allocation of the funding to the community level.

- **WESTERN CONSTITUTIONAL DEVELOPMENT**

Funding provided to the Constitutional Working Group who are developing the structure of the government and constitution of the Western Territory after Division.

- **INHERENT RIGHT WORKING GROUP CONTRIBUTIONS**

Funding provided so that organizations can participate in the Inherent Right Working Group. The Working Group examines issues related to the implementation of self government in the Western Territory.

- **INUVALUIT REGIONAL CORPORATION**

Funding provided to help offset expenditures incurred during self government negotiations with the Government of Canada and the GNWT.

- **OTHER CONTRIBUTIONS**

1. Deline Land Corporation: Funding provided so that the organization could participate in meetings held by NWT Aboriginal Chief Negotiators.
2. De Gah Gotie Dene Council: Funding provided for a Community Development meetings that explored various Self Government models.

Explanation of significant variances from the 1997-98 report

Community Expenditures

The decrease is attributed to more funding being provided to regional organizations for Annual General Assemblies than in 1997-98. This is supported by a slight increase in Regional Expenditures.

Corporate Expenditures

The increase in corporate expenditures is the result of the addition of three new positions to deal with increased activity related to self-government negotiations.

Descriptions Of Major Programs And Allocation Methodologies

• POWER SUBSIDY PROGRAM

Subsidies provided to domestic and commercial consumers of electricity residing in high cost communities.

• STAFF HOUSING

Costs associated with providing subsidized housing to GNWT employees. Staff housing units are located in most communities except for Hay River, Fort Smith, and Yellowknife.

• OCCUPATIONAL HEALTH CONTRIBUTION

Funding provided to the Workers Compensation Board for provision of Occupational Health and Safety Services. The responsibility for providing these services was assumed by the Board in 1996-97 and consequently interim funding was granted for a three-year period to help reduce the financial impact the additional services may have on WCB rates.

The program is administered by personnel located in Yellowknife and Inuvik who provide services to an entire region.

Explanations To Major Variances From 1997-98 Report

Community Expenditures

Although, overall, there is a small decrease in community level expenditures, there are significant variances in individual programs from the 1997-98 report.

The increase in the Power Subsidy Program is a reflection of the NWT Power Corporation's 1995/98 General Rate Application Phase 1, which increased the non-government domestic community rates. Consequently, there was an increase in the number of consumers eligible for the program across the NWT.

The increase in the Power Subsidy Program is partially offset by a decrease in the Staff Housing Program that was attributed to a 57 unit decline in the staff housing inventory.

Regional Expenditures

The decline in Occupational Health is attributed to the phasing out of the program.

When the program was transferred to the Workers Compensation Board in 1996-97, interim funding was provided to the Board for a three year period to help reduce the financial impact the additional services may have on WCB rates. The interim funding arrangement was based on the following sliding scale - 75% in 1996-97, 50% in 1997-98 and 25% in 1998-99.

Corporate Expenditures

The significant increase in corporate expenditure is attributed to several new initiatives that the department was required to undertake during the year, as follows:

- The PeopleSoft Polar Project. The GNWT was required to implement a new payroll and human resource system because its current system was old and there was a risk that it would not be operational on January 1, 2000 (the Y2K problem).
- The Equal Pay Complaint. In March 1989, the Public Service Alliance of Canada, on behalf of the Union of Northern Workers, filed an equal pay complaint against the GNWT. The equal pay complaint is currently before a Canadian Human Rights Tribunal and the department is the GNWT's representative at this hearing.
- The P3 Initiative. This initiative was a pilot project aimed at attracting private sector financing for the development of public infrastructure projects such as hospitals and college facilities. The department's role in this initiative was one of developing and implementing policy, coordinating the work of departments and assisting in the analysis and evaluation of proposals.

Descriptions Of Major Programs And Allocation Methodologies

Unless otherwise stated, the allocation of Territorial Expenditures, East and West, was based on the Historical Expenditure Ratio (HER). The HER was the ratio that was used to divide those assets and liabilities that could not be allocated on a geographic basis, during the Division of Assets and Liabilities exercise.

Prior year amounts have been restated based on this methodology.

- **INSURANCE PREMIUMS**

These are expenditures incurred for insurance premiums paid for physical assets and government liability.

The department identified that there were no statistics available within the department that would provide a breakdown of these expenditures to a specific community. The department did note that property insurance premiums could be divided between communities based on location of the physical assets insured if that information was available. However, liability premium costs could not be allocated to the community level. Consequently, the expenditures were left as regional.

- **BAD DEBT EXPENSE**

This is an increase to the allowance for tobacco taxes levied against a retailer located in Inuvik. Future allowances, if any, could be assigned to the appropriate community based on the location of the debtor.

- **SHORT TERM DEBT**

Short-term debt is incurred as a consequence of the GNWT's cash position, which in turn is dependent on the levels and timing of revenue and expenditures. Consequently, allocation of this debt cannot be made without knowing the allocation of assets and liabilities between communities. As such, the expenditures associated with this program could not be allocated.

- **LONG TERM DEBT**

This is the interest expense relating to the debt with the NWT Power Corporation. The total outstanding debt was repaid on June 23, 1998.

Allocation of the interest expense was based on the Revenue Requirement Ratio that will be used to divide the NWT Power Corporation's assets and liabilities, east and west. The ratio is 31.58% east and 68.42% west.

- **BANK SERVICE FEES**

These fees are comprised of both a fixed monthly fee and a volume derived fee. The department indicated that there are not statistics available that would provide a breakdown of these fees to a specific community or even a region. Consequently, the fees were not allocated.

- **TERRITORIAL EXPENDITURES NOT ALLOCATED**

The unallocated Bad Debt expense is attributed to overdue property taxes due to the GNWT from two mining companies that are not NWT residents.

Explanations to Major Variances from 1997-98 Report

Corporate Expenditures

The increase in corporate expenditures was primarily the result of the Department conducting the NWT Labour Force Survey during the year. The use of casual workers and other associated operations and maintenance expenditures was higher than usual.

Descriptions of Major Programs and Allocation Methodologies

• REGIONAL PROGRAM SUPPORT

The expenditures recorded as regional represent the department's regional management structure that supports regional program delivery. By definition, regional administrative costs are considered corporate.

• TERRITORIAL PROGRAMS NOT ALLOCATED

NWTAM Contribution	\$ 301,000.00
Sport North Federation	271,888.16
EMO - Training and Other Initiatives	202,091.61
Fire Fighter Training	106,064.58
NWT Parks and Recreation	72,535.00
RCMP Community Constable Program	46,203.52
Arctic Winter Games	40,000.00
Indian and Inuit Games	29,000.00
SAO - Evaluations and Certificate Program	19,000.00
Northern Games Committee	17,000.00
Canadian Fitness and Living	9,500.00
Other	12,821.13
	\$1,127,104.00

The department indicated that there are no statistics available within the department that would provide a breakdown of these expenditures to the community level or any methodologies that could be developed to provide a meaningful allocation to the community level. Consequently, the expenditures were determined to be unallocatable. A brief description of some of the major programs follows.

NWTAM Contributions

Annual operating contribution provided to the NWT Association of Municipalities, as well as, additional funding provided to the NWTAM to assist with the extra responsibilities assumed by the Association as result of the department's financial and legislative reviews.

Sport North Federation

Funding provided to the Sport North Federation to assist the organization with the development and delivery of various workshops and training opportunities. For example, during the year the organization undertook a significant initiative in the development of coaching resources and workshops related to more traditional

Municipal and Community Affairs

NWT sports. The total contribution the department provided to support this initiative was over \$222,000.

EMO - Training and Other Initiatives

The Emergency Measures Organization is responsible for developing GNWT emergency response plans, coordinating GNWT emergency operations at the territorial levels, supporting communities in preparing their own emergency response plans and in responding to emergencies and administering disaster assistance programs. The EMO also conducts exercises to test emergency plans.

Fire Fighter Training

Training provided to municipal fire fighting personnel. To save costs, the Department delivered this training at the territorial level instead at the community by community level.

- **MUNICIPAL OPERATING ASSISTANCE**

Transfer payments made to hamlets to assist in meeting them with their operating costs.

- **BLOCK FUNDING TRANSFER PAYMENTS**

Funding provided to taxed based municipalities that have negotiated agreements for full capital and operations authority and responsibility for planning and delivery of all municipal projects, programs and services eligible for funding under the department's programs.

- **WATER AND SEWER SUBSIDY PROGRAM**

Funding provided to community governments to offset the high cost of water and sewage services to local residents.

- **GRANTS IN LIEU OF TAXES**

A grant provided to municipal corporations that is equal to the assigned mill rate applied to assessed GNWT properties.

- **SETTLEMENT OPERATING ASSISTANCE**

Funding provided to settlement councils to assist with locally determined administrative projects.

- **SENIOR CITIZENS TAX RELIEF**

A matching grant provided to municipal taxing authorities that is equal to the municipal property tax forgiveness granted to elderly and disabled homeowners.

Descriptions Of Major Programs And Allocation Methodologies

• REGIONAL PROGRAM SUPPORT

The expenditures recorded as regional represent salary, wages and O&M for regional administrative support staff for the above programs. By definition, regional administrative costs are considered corporate.

• ASSET MANAGEMENT

Asset Management includes the maintenance groups and property officers in Yellowknife and the regional offices that manage the operation maintenance of many government buildings, works and equipment, including owned and leased office space. Lease payments, utilities, building maintenance and vehicle maintenance are the major expenditures that fall under this program.

• TERRITORIAL PROGRAMS NOT ALLOCATED

Contribution to the Arctic Energy Alliance (Alliance) of \$10,000.

The department is one of several organizations that recognized the need to coordinate the planning and management of energy and utility systems in the NWT. Together with other core members, the Alliance was formed to assist energy consumers to work together to reduce the costs and environmental impacts of energy and utility services in the NWT, including the effective delivery of energy management programs to all the regions in the NWT.

Explanation of Significant Variances from the 1997-98 Report

Corporate expenditures were over \$4.2 million higher in 1998-1999 for the following reasons:

- The approved wind down of the Granular Products Revolving Fund during the year resulted in an additional \$1.9 in expenditures because of the write-off of granular product inventories.
- In 1997-98, as part of the user pay/user say transfers, the department transferred approximately \$2.5 million to departments for project support services. The department initially incurred the cost of these services but subsequently transferred them to client departments. In 1998-99, this part of the user pay/user say initiative was cancelled and the funding for project support services was returned to the department.

Project support services consists of the salaries, wages and related O&M for Project Officers who provide regional administrative support to client departments for their respective construction projects.

Descriptions Of Major Programs And Allocation Methodologies

• BOARDS OF MANAGEMENT

Funding for Boards of Management (Boards) that provide services to eligible Northwest Territories residents in all areas of health and social services, including but not necessarily limited to hospital and health centres, health promotion and prevention, medical travel, child welfare, family violence, community wellness, addictions programs and seniors programs.

On April 1, 1997, regional social services was amalgamated with the Boards. Contribution agreements were signed and will be renewed annually under the Memorandum of Understanding (MOU) with the Boards. These MOUs cover all aspects of health and social service delivered by the Boards. Payment polices for each program area is covered under specific legislative requirements to provide services as well as establish parameters under which the Boards separately account for each program area. Pursuant to the Territorial Hospital Insurance Services Act (THIS Act), Boards are established to operate, manage and control facilities, programs and services including, but not limited to, the following:

Primary and Acute Care Programs

Services to eligible NWT residents in areas such as inpatient and outpatient services within the NWT, public health and chronic care (THIS Benefits). The majority of GNWT hospitals are accredited and function under standards established by the Canadian Council on Health Facility Accreditation. All health facilities meet the requirements set out in the THIS Act, Regulations, Policies and Standards, as well as applicable Territorial legislation and policies. Medical Travel Benefits, for example, would also fall under these programs. The Medical Travel Benefit provides monetary assistance for transportation and boarding to eligible residents who are required to travel for insured medical and hospital services and who do not have access to medical travel benefits through an employer or other insurance plan.

Health and Social Services

Foster Care

Provides coordination, consultation, support and funding to foster parents looking after children in the care and custody of the Superintendent of Child Welfare.

Residential Care - Alcohol and Drug

Provides contribution funding to non-profit societies operating residential treatment and rehabilitation services for alcohol, drug and other addictions.

Home Care

Services provided to eligible NWT residents in areas such as homecare nursing services and coordinated homecare.

Residential Care - Children

Provide coordination, consultation, support and funding for the provision of residential treatment services for children in the care and custody of the Superintendent of Child Welfare.

Residential Care - Elderly and Handicapped

Funding provided for residential facilities for handicapped adults in group homes, institutional placements and elders in senior/personal care facilities.

Family Violence Shelters

Funding provided to support non-profit community groups operating emergency shelters and counselling services for victims of spousal assault and other forms of family violence. This includes safe homes, transition houses, and second stage housing that offers shelter and security on a short-term basis, and provides assistance in the resolution of family violence.

Children's Group Homes

Provide coordination, consultation, support and funding to private contractors who are caring for children with special needs in the care and custody of the Superintendent of Child Welfare.

Community Wellness Programs

Funding provided to assist organizations and local governments at the community level to promote mental health and provide individual and family counselling, education, prevention and appropriate treatment-oriented services. This includes training and traditional healing, related to emotional and social problems such as family violence and suicide.

Community-Based Alcohol and Drug Programs

Funding provided to non-profit societies operating residential treatment and rehabilitation services for alcohol, drug and other addictions.

Intervention Services

Provide coordination, consultation, support and funding for local, board, and territorial initiatives to develop parental support and early intervention for programs at risk.

Child Sexual Abuse Prevention

Provide coordination, consultation, support and funding for community initiatives and professional services aimed at reducing the incidence of child sexual abuse and delivering intervention services for child sexual abuse victims.

- **PHYSICIANS INSIDE THE NWT**

Provide eligible residents with coverage for insured medical services within the NWT.

- **PHYSICIANS OUTSIDE THE NWT**

Provide eligible residents with coverage for insured medical services rendered elsewhere in Canada at rates established by the provincial or territorial health care plans.

- **NON-INSURED HEALTH BENEFITS**

Provides coverage for status Indian and Inuit residents requiring benefits not covered under the hospital or medicare programs.

Health and Social Services

- **OUT OF THE NWT HOSPITALS**

Provides eligible residents with coverage for insured hospital services rendered outside the NWT.

- **SUPPLEMENTARY HEALTH BENEFITS**

Provide Extended Health Benefits and Metis Health Benefits to eligible residents. Benefits include prescription drugs, appliances, supplies, prostheses and certain medical travel expenses. Additional benefits for seniors cover eyeglasses, hearing aids and dental care.

The department used utilization statistics to allocate regional and territorial program expenditures to the community level. Utilization statistics were gathered from specific program information or the Northern Health Information.

Descriptions Of Major Programs And Allocation Methodologies

• POLICE SERVICES

The Royal Canadian Mounted Police (RCMP) provide the NWT with policing services through the Police Services Agreement, which is a signed agreement between the GNWT and the Solicitor General of Canada.

Police Services is a territorial program, with expenditures totaling \$28.7 million in 1998-99. Of this amount, the department and the RCMP allocated \$12.6 million to the Western Territory and \$9.9 million to the eastern territory. Further, the western portion was allocated to the community level based on detachment expenditure information compiled by the RCMP.

\$6.2 million of the expenditures were associated with the provision of headquarters services to the western territory by the Yellowknife "G" Division that could not be allocated to the community level. Included in this amount is \$2.1 million for a one-time cost to purchase a new plane.

• CORRECTIONS

Corrections has the mandate to administer the dispositions of the Courts for both adults and young offenders, in accordance with statutory requirements by providing the safe custody and detention of persons sentenced to periods of incarceration or those remanded into custody. Corrections also administers wilderness camp operations and open custody facilities as part of the community corrections mandate.

The department determined the best means for obtaining information on incarcerated persons from any given community in the western territory is using the "number of bed days" per community. The derived community utilization ratios were applied to the total expenditures to determine community by community expenditures.

• LEGAL SERVICES BOARD

The Legal Services Board (Board) provides contributions to regional Legal Aid Clinics in order to fund expenses related to the operation of their offices. These clinics provide court worker services and general office services to the staff lawyers in the applicable region. The Board is responsible for ensuring that all eligible persons in the NWT have access to legal services.

The Board is a territorial program that had \$2.5 million in expenditures in 1998-99. Of this amount, the department allocated \$1.7 million to the Western Territory and \$0.8 million to the eastern territory. The department further allocated the western portion to the community level by using data generated by the Legal Aid Information System on community case loads.

This amount does not include the corporate/administrative cost incurred to support the Board, which were \$1.2 million in 1998-99 (\$1 million - 1997-98).

- **COMMUNITY JUSTICE PROGRAMS**

Funding provided for community justice projects that promote and encourage the participation of communities in the justice system and the development and implementation of community-based alternatives to the format justice system.

- **COMMUNITY CONSTABLE PROGRAMS**

Funding provided for the First nations Community Policing Program. This program provides funds for communities that want to take an active role in making their community safe through a policing role. The interested community partners with the RCMP and the GNWT to provide eligible participants with training. This program is cost-shared with the Federal Government.

- **TERRITORIAL PROGRAMS NOT ALLOCATED**

Police Services	\$ 6,110,882.00
Community Justice	514,863.28
Community Constable Program	342,000.00
	<hr/>
	\$ 6,967,745.28

The department indicated that there are no statistics available within the department that would provide a breakdown of these expenditures to the community level or any methodologies that could be developed to provide a meaningful allocation to the community level. Consequently, the expenditures were determined to be unallocatable.

Explanation of Significant Variance From the 1997-98 Report

Community Expenditures

Expenditures for Territorial Court Services relate to court circuit charters associated with the satellite courts in Hay River and Inuvik. Further analysis of these expenditures deemed that it was not appropriate to record these expenditures at the community level since the court circuit charter could have been used to service more than one community.

During the division costing exercise, the courts located in Yellowknife and Iqaluit were classified as corporate functions. Thus, the expenditures associated with the Hay River and Inuvik courts have also been classified as Corporate. Accordingly, the 1997-98 expenditures for Territorial Court Services have been restated to Corporate.

Territorial Expenditures

The increase in the allocated Territorial Expenditures is associated with the one-time cost incurred by the RCMP to purchase a new plane.

Corporate Expenditures

The increase is largely attributed to an increase in positions within the Corrections Administration function from 1997-98.

Northwest Territories Housing Corporation

Descriptions Of Major Programs And Allocation Methodologies

- **PUBLIC HOUSING CONTRIBUTIONS**

Contributions to community housing authorities and associations, municipalities and bands that are in partnership with the Corporation to provide public rental housing and related services to the residents of the Northwest Territories.

- **OTHER CONTRIBUTIONS**

Contributions to non-profit, community based organizations for the provision of subsidized support for Rent Geared to Income, Co-op and Special Purpose projects.

- **AMORTIZATION**

Expenditures represent the payment of principal and interest on loans from the Canada Mortgage and Housing Corporation (CMHC).

Summary of Variances from 1997-98 Report

Program	1998-99	1997-98	Percentage Change
Public Housing Contributions	\$27,422,000	\$26,677,000	2.79%
Other Contributions	3,924,000	3,512,000	11.73%
Amortization	13,094,000	13,094,000	0.00%
Total Program Expenditures	\$44,420,000	\$43,283,000	

The increase in Other Contributions is attributed to:

- An increase shown in the community of Fort Liard for the Kotaneelee Housing Association. In 1997-98, the operating subsidy for the Association was reduced to recover operating surpluses from prior years. The contribution amount reported in 1998-99 is therefore more reflective of the typical operating contribution received by the Association.
- A one-time payment to the Inukshuk Housing Co-operative in Yellowknife to pay property taxes owed to the City of Yellowknife.

Descriptions Of Major Programs And Allocation Methodologies

• SCHOOLS

Annual operating contributions to the Yellowknife District Education Authorities and Divisional Education Councils for the operation of school programs. The amount of the contribution is derived from a formula based on enrolment.

Expenditures were initially reported at the regional level. Allocation to the community level was calculated using quarterly enrolment reports provided by the education authorities and councils.

In 1998-99, additional funding in the amount of \$348,969 was provided to regional organizations for School Community Counsellor Training (\$182,047) and the Western Arctic Leadership Program (\$166,922).

• SOCIAL ASSISTANCE

Provision of income support payments to those in Need, as defined by the Social Assistance Act.

Over \$16 million was initially reported at the regional level. Allocation to the community level based on actual expenditures recorded in the Social Assistance System during the 1998-99 fiscal year.

• AURORA COLLEGE

Funding provided to Aurora College for adult and post-secondary education services. The funding is allocated at the campus level based on the College Funding Allocation System, as follows:

	1998-99	1997-98
Fort Smith Campus	\$ 13,007,183.00	\$ 12,489,419.00
Inuvik Campus	4,932,324.00	4,737,420.00
North Slave Campus in Yellowknife	2,871,985.00	2,750,730.00
	\$ 20,811,492.00	\$ 19,977,569.00

• POST SECONDARY STUDENT SERVICES

Grants provided to Northwest Territories students for post-secondary education. Also, student loan remissions or write-offs related financial assistance paid through by the Student Loan Fund in accordance with the Student Financial Assistance Act and Regulations.

• EARLY CHILDHOOD SERVICES

Funding for the operation of established centres and for the initial equipment, insurance and other costs associated with the startup of a day care centre or day home.

Education, Culture and Employment

Funding provided to communities for integrated early intervention services.

In 1998-99, funding was also provided to regional organizations to projects and other training/educational development under the Healthy Children Initiative. There were no reasonable methodologies available to allocate these expenditures to the community level. Contributions were provided to the following organizations:

Dogrib Community Services	\$ 158,550.00
Aurora College	145,000.00
Inuvialuit Regional Development Corp.	52,686.00
Native Women's Association	25,000.00
	<hr/>
	\$ 381,286.00

- **CAREER AND EMPLOYMENT**

Funding provided for programs that enhance the employability of Northerners.

The expenditures recorded as regional represent the costs associated with maintaining regional Career Centres.

- **MUSEUMS AND HERITAGE**

Funding provided to regional and community organizations for local museum development and for the promotion of cultural diversity within the NWT.

- **ADULT BASIC EDUCATION**

Contributions provided to community organizations to deliver literacy programs. This includes funding for the Tree of Peace adult education programs and for Project Change School, which targets disadvantaged young adults.

Explanation of Significant Variance from the 1997-98 Report

Territorial Expenditures

New or one-time funding provided to territorial organizations. The department indicated that there are no statistics available within the department that would provide a breakdown of these expenditures to the community level or any methodologies that could be developed to provide a meaningful allocation to the community level.

Consequently, the expenditures were determined to be unallocatable and are as follows:

NWT Council for the Disabled - Early Intervention Program	\$ 66,686.00
Aurora College - Career Development Training	109,673.20
Northern Anthropological Society	62,333.00
	<hr/>
	\$ 238,692.20

Corporate Expenditures

The slight rise in corporate expenditures is attributable to ongoing system enhancements and development incurred for the various Income Support systems...social assistance and student financial assistance.

Descriptions of Major Programs and Allocation Methodologies

• AIRPORT OPERATIONS

The purpose of the Airports Program is to provide airport facilities and services and to encourage and support the provision of regular, safe, cost-effective and reliable air services.

The department is responsible for the maintenance, operation, rehabilitation and upgrading of all airports in the NWT. The department is also responsible for the provision of Community Aerodrome Radio Services (CARS) on behalf of Transport Canada. Connected with the Airports Program, the department maintains a close watch over air transportation legislation, regulation and policy activities of other

governments, overall trends in air transportation safety, costs, infrastructure technology development/change and opportunities for partnership finance the improvement of airport infrastructure.

In addition to the small community airports, the department operates six Arctic A Airports that provide regional and territorial services. These are the airports located in Fort Smith, Hay River, Norman Wells, Fort Simpson, Inuvik and Yellowknife. The Yellowknife airport is the "Gateway" hub for the entire Northwest Territories and is thus considered a territorial service.

• HIGHWAY OPERATIONS

The purpose of the Highways Program is to provide highway facilities and to encourage and support the provision of safe, reliable and cost-effective inter-community travel and road transportation services.

The department is responsible for the maintenance, rehabilitation, and upgrading of about 2,200 kilometers of all-weather highways and about 1,300 kilometers of seasonal winter roads.

The Highways Program is reported as a regional program because the department indicated that there are no statistics available within the department that would provide a breakdown of these expenditures to the community level or any methodologies that could be developed to provide a meaningful allocation to the community level.

• FERRY OPERATIONS

The purpose of the Ferry Program is to provide safe and reliable ferry crossing services on the highway system.

The department is responsible for the maintenance, operation and upgrading of vessels and support facilities at five ferry crossings.

The Ferry Program is reported as a regional program because the department indicated that there are no statistics available within the department that would provide a breakdown of these expenditures to the community level or any methodologies that could be developed to provide a meaningful allocation to the community level.

- **COMMUNITY ACCESS ROADS**

The purpose of the Community Access Road Program is to provide access roads and trails to local attractions in support of tourism, resource harvesting and recreation opportunities.

The department provides funding and technical assistance to communities in construction and maintenance of access roads.

Explanation of Significant Variance from the 1997-98 Report

Community Expenditures

The 1997-98 report classified the expenditures incurred for the six Arctic A airports to the community level. This classification was not appropriate since these airports obviously provide benefits to at least the regional level. As stated above, the Yellowknife airport actually provides a territorial service and should be reported as such. The five other reports located in Fort Smith, Hay River, Fort Simpson, Norman Wells and Inuvik are regional hubs. Accordingly the 1997-98 report has been restated to reflect this change in methodology. The expenditures associated with these airports for 1998-99 and the two previous reports (1996/97 and 1997/98) are summarized in the following table.

Airport Location	Program Level	1998-99	1997-98	1996-97
Yellowknife	Territorial	\$ 2,735,356	\$ 2,570,966	\$ 2,765,079
Fort Smith	Regional	670,320	625,914	615,269

Descriptions Of Major Programs And Allocation Methodologies

• FOREST MANAGEMENT

Forest Fire Management is concerned with the protection of people, property and forested areas from wildfire and the use of prescribed burning for the attainment of forest management and other use objectives. The programs are conducted in a manner that considers environmental, social and economic criteria affecting the residents of forest areas.

Forest Management consists of two activities, Forest Development and Forest Fire Suppression.

Forest Development administers and manages the development of forest resources by:

- issuing timber permits and licenses to control and manage harvest operations;
- preparing inventories to identify the location and amount of forest resources;
- implementing programs that include site preparation, planting and seeding to ensure the availability of new forests for future generations;
- insect and disease monitoring to assess their impacts on forest resources;
- research into tree growth and yield and site classification systems; and
- the development of long term strategies for the sustainable development of the forest resource.

Forest Fire Suppression is responsible for the provision of forest fire management services on forested areas.

Forest Management is reported as a regional program because the department indicated that there are no statistics available within the department that would provide a breakdown of these expenditures to the community level or any methodologies that could be developed to provide a meaningful allocation to the community level.

Resources, Wildlife and Economic Development

- **REGIONAL PROGRAM DELIVERY**

Regional Program Delivery represents regional departmental support for the delivery of departmental renewable resource programs. Regional staff provide advice, coordination and support to a variety of sectors including business, arts and crafts, trade and investment, and manufacturing and marketing. Staff also provide advice and assistance to local hunters and trappers organizations and inform the public and regional organizations on the wise use of renewable resources and assist with resource development. The four major program areas represented by Regional Program Delivery are:

- Trade and Investment
- Field Operations
- Parks and Tourism
- Technical Services

- **BUSINESS DEVELOPMENT FUND**

The Business Development Fund issues contributions to NWT businesses to encourage growth and expansion, with emphasis on less developed regions and communities. Funding is available to assist businesses through planning, construction, marketing and training.

- **WESTERN HARVESTORS SUPPORT PROGRAM**

Funding provided to regional or community aboriginal organizations to establish harvest support programs to promote the local renewable resource economy.

Delivery of departmental renewable resource programs at the regional or community level. Regional staff provide advice and assistance to local hunters and trappers organizations, advise the public on the wise use of renewable resources, and assist resource users in resource development and resource use activities.

- **COMMUNITY FUTURES**

Funding provided to regional organizations to help solve long-term employment problems in communities within their regions.

The Community Futures is reported as a regional program because the department indicated that there are no statistics available within the department that would provide a breakdown of these expenditures to the community level or any methodologies that could be developed to provide a meaningful allocation to the community level.

- **TERRITORIAL PROGRAMS NOT ALLOCATED**

NWT Development Corporation	\$ 6,111,000.00
WCB - Hunters and Trappers Claims	1,427,643.75
Interim Resource Management Asst.	375,000.00
Arctic Energy Alliance	294,000.00
Sirius Diamonds	250,000.00
GeoNorth Limited - Technical Analysis	163,000.00
Geostar Consultants	78,375.00
Porcupine Caribou Mgmt. Board	75,335.00
L'Hertiage - Fur Marketing	63,042.53
Peter Eglington and Associates	55,400.00
NWT Tourism Association	50,000.00
MacIntosh Photography - Tourism Ads	44,941.39
Protected Area Strategy	40,000.00
Territorial Embroidery - Merchandise	26,770.00

Resources, Wildlife and Economic Development

The department indicated that there are no statistics available within the department that would provide a breakdown of these expenditures to the community level or any methodologies that could be developed to provide a meaningful allocation to the community level. Consequently, the expenditures were determined to be unallocatable. A brief description of some of the major programs follows.

NWT Development Corporation

Funding provided to the Corporation to help meet its mandate to generate employment and develop economic opportunities that may not be suited for individual entrepreneurs.

WCB Hunters and Trappers Claims

A program the department has with the Workers Compensation Board to reimburse the WCB for compensation paid to NWT trappers participating in the department's Trappers Program.

The department indicated that data that identified the recipient of the claim, however, the community of residence of the recipient was not readily available.

Explanation of Significant Variance from the 1997-98 Report

Regional Expenditures

The increase in regional expenditures is attributed to the increase reported for Forest Management resulting from a significant increase in the number of fires during the season. The extreme fire season caused the department to request supplementary funding in excess of \$14 million.

Territorial Expenditures

The decrease in expenditures was the result of the department reducing the level of funding provided to the NWT Development Corporation.

Summarized Data Presentation

F. Summarized Data Presentation

The information the following section provides summaries of the western territories expenditures for 1998-99 as follows:

1. A Summary of the Total Departmental Spending
2. Departmental spending for those communities that are the headquarters or regional headquarters centres.

Departmental spending on a per capita basis for those communities that are the headquarters or regional headquarters centres.

The communities included as Major Centres are:

- Fort Smith
- Yellowknife
- Hay River
- Fort Simpson
- Inuvik

3. Departmental spending for those communities that are part of the geographic area referred to as the South Slave.

Departmental spending on a per capita basis for those communities that are part of the geographic area referred to as the South Slave.

The communities included as South Slave are:

- Fort Resolution
- Lutsel K'e
- Enterprise

4. Departmental spending for those communities that are part of the geographic area referred to as the North Slave.

Departmental spending on a per capita basis for those communities that are part of the geographic area referred to as the North Slave.

The communities included as North Slave are:

- Detah
- Wha Ti
- Rae Lakes
- Rae/Edz
- Wekweti

5. Departmental spending for those communities that are part of the geographic area referred to as the Deh Cho.

Departmental spending on a per capita basis for those communities that are part of the geographic area referred to as the Deh Cho.

The communities included as Deh Cho are:

- Fort Providence
- Hay River Reserve
- Jean Marie River
- Nahanni Butte
- Wrigely
- Trout Lake
- Kakisa

Summarized Data Presentation

6. Departmental spending for those communities that are part of the geographic area referred to as the Sahtu.

Departmental spending on a per capita basis for those communities that are part of the geographic area referred to as the Sahtu.

The communities included as Sahtu are:

- Norman Wells
- Tulita
- Fort Good Hope
- Deline
- Colville Lake

7. Departmental spending for those communities that are part of the geographic area referred to as the Beaufort/Delta.

Departmental spending on a per capita basis for those communities that are part of the geographic area referred to as the Beaufort/Delta.

The communities included as Beaufort/Delta are:

- Aklavik
- Fort McPherson
- Tsiigehtchic
- Sachs Harbour
- Holman
- Paulatuk
- Tuktoyuktuk

8. Community Level Expenditures for Major Programs

- A Summary
- A Per Capita Summary
