

IDENTIFICATION

Department	Position Title	
Environment and Climate Change	Manager, Program Support Services	
Position Number	Community	Division/Region
23-6983	Fort Smith	Forest Management

PURPOSE OF THE POSITION

The Manager, Program Support Services (Manager) provides leadership in the provision of financial management and program support services for the Forest Management Division in a decentralized environment. The Manager coordinates and manages the activities of the division within the context of relevant legislation, policy, standards, and overall strategic direction of the Department. Support to the Director in tracking and monitoring fire response costs is a key aspect of the position.

SCOPE

Located in Fort Smith and reporting to the Director, Forest Management Division (Director), the Manager, Program Support Services is relied on by the Director for advice and support in matters of finance and administration. The Manager works closely with Finance in Headquarters. There is also a significant requirement for coordination and collaboration with the five Regions through which divisional programs are delivered operationally. The position directly supervises the Accounts Payable Clerk and provides functional supervision to three (3) additional divisional staff in Fort Smith and one (1) in Hay River. The position participates as a member of the management team within the Division.

The Forest Management Division (FMD) provides the policy, planning, and regulatory framework for the stewardship, protection, and sustainable management of forest resources on 33 million hectares of land in the Northwest Territories (NWT). The financial management function is a key area of responsibility. The Program Support Section provides the financial services and expertise, diverse administrative services and advice that supports the Division as a resource management and emergency response organization.

The Forest Management Division is a headquarters function located in Fort Smith. The location of this headquarters function outside of Yellowknife where the Divisional budget resides provides challenges. The size of the budget and complexity of the Division's organization pose additional challenges.

The Division has an annual budget of approximately \$18 million involving four *voted* appropriations. Expenditure of funds under the forest fire suppression program involves the expenditure of a large budget within a relatively short time frame. Ensuring appropriate and effective use of pre-suppression and suppression funding is a primary requirement. During the forest fire season, a large number of human and material resources are deployed to suppress wildfire. Including personnel who function under different remuneration and contractual agreements. Many of these resources and valuable assets are deployed and re-deployed throughout the Territory. The Program Support Manager assists the Director, Forest Management by providing accurate and timely budget and financial information and must be responsive to the needs of constantly changing circumstances and environments during the fire season.

Due to the location of the Division and forest fire suppression program needs, the position reviews and processes complex transactions and authorizes payment of those obligations with full payment authority. Highly confidential material is dealt with on a regular basis. The work is subject to limited review and there is wide latitude for Independent judgment and decision-making within the parameters of Departmental and government policy and procedures for finance and administration.

The Manager has regular contact and works closely with program managers and staff to anticipate and identify the financial implications of operations, design feasible approaches and processes and/or make recommendations that influence the program's creditability and financial health, with potential political and fiscal impacts for the department specific contacts. Include division managers, regional staff involved in the forest resources and fire management program, business experts, consultants and contractors.

RESPONSIBILITIES

1. Coordinates the development of program planning and budget submissions for the Forest Management Division.

- Reviews and analyzes previous year performance and expenditures, historical financial information, trends, and department-wide change to support business planning development.
- Prepares, distributes, and explains business plan performance and budget format and requirements.
