

IDENTIFICATION

Department	Position Title	
Northwest Territories Health and Social Services Authority	Relief, Indigenous Patient Liaison	
Position Number	Community	Division/Region
48-12288	Yellowknife	Indigenous Wellness Program / Stanton Territorial Hospital

PURPOSE OF THE POSITION

The Relief Indigenous Patient Liaison (Liaison) engages with the patient and/or family in their own Indigenous language, supporting equitable access and quality care to patients and their families, by helping patients and families to understand and navigate needed services within the hospital, assisting with their understanding of care plans, and providing or facilitating the provision of practical, social, and sensitive supports, as required.

The position also assists in the planning and provision of culturally relevant training and support to health care providers, to ensure quality and culturally sensitive holistic healthcare.

SCOPE

The Northwest Territories Health and Social Services Authority (NTHSSA) is the single provider of all health and social services in the Northwest Territories (NWT), with the exception of Hay River and Tłıchǫ regions, covering 1.2 million square kilometers and serving approximately 43,000 people, including First Nations, Inuit, Métis, and non-Indigenous. Health and social services includes the full range of primary, secondary and tertiary health services and social services including family services, protection services, care placements, mental health, addictions, and developmental activities, delivered by more than 1,400 health and social services staff.

While the Tłıchǫ Community Services Agency (TCSA) will operate under a separate board and Hay River Health and Social Services Agency (HRHSSA) will in the interim, the NTHSSA will set clinical standards, procedures, guidelines and monitoring for the entire Northwest Territories. Service Agreements will be established with these boards to identify performance

requirements and adherence to clinical standards, procedures, guidelines and policies as established by the NTHSSA.

STH is an accredited facility, located in Yellowknife, Northwest Territories (NWT). Stanton is the referral center for approximately 43,000 NWT residents and 6,000 residents from the Kitikmeot Region of Nunavut. Stanton provides health care services to adults and children on an inpatient/outpatient and outreach basis in order to restore health with dignity.

STH includes the territorial hospital inpatient units along with two outpatient clinics, one located within STH and the Stanton Eye Clinic located off-site; STH provides inpatient and outpatient Indigenous Liaison Services, and may provide liaison services for patients and families, in their interaction with other health and social services community agencies in Yellowknife on an as needed basis, depending on capacity. One of the main objectives is to enhance communication for Indigenous patients and families, and to provide them with culturally appropriate support. Indigenous peoples comprise 51% of the population in the NWT and constitute a significant proportion of patients receiving inpatient and outpatient care at Stanton Hospital.

As part of the multidisciplinary care team, the Liaison is actively involved in the planning of care and advocates for the needs of Indigenous patients and families. Frequently, Indigenous patients coming to STH from small communities have difficulty navigating their care due to differences in language, communication, and culture. The Liaison's role is to bridge the gap in communication between the hospital for the patient and their family. The primary goal is to improve the patient's wellbeing, cultural safety and understanding of health services and to engage them in their care plan.

Located in Yellowknife and reporting directly to the Manager, Indigenous Wellness, the Liaison is responsible for assisting Indigenous patients and their families with patient staff communication regarding the patient's health condition, care plan, and discharge plan to the community. The Liaison will work with the patient and health care providers to address and overcome any real or perceived barriers to communication, care and/or planning and to make the care environment as supportive to them as possible. Requests for the Liaison may come directly from the patient, family, or any health professional.

RESPONSIBILITIES

1. Delivers Indigenous Wellness Program services.

- Identifies individual patients' and/or families' needs, implements, and assists with the delivery of unit cultural programs.
- Actively offers and assists patients and/or families, healthcare providers in the selection of Indigenous Wellness Program services and their participation in these services.
