

IDENTIFICATION

Department	Position Title	
Northwest Territorial Health and Social Services Authority	Territorial Program Assistant, Data and Evaluation	
Position Number	Community	Division/Region
48-17411	Yellowknife	Public Health and Primary Care Services/ Territorial Operations

PURPOSE OF THE POSITION

The Territorial Program Assistant, Data and Evaluation (Program Assistant) is a member of the Public Health and Primary Care Team. The incumbent is responsible for providing dedicated support to the team with coordination and management of administrative duties, supporting the Territorial Primary Care, Community Health, Public Health, Communicable Disease, Oral Health and Chronic Disease programs. The incumbent will play a key role in compiling and coordinating Quality Indicators for these programs from across the Territory.

SCOPE

The Northwest Territories Health and Social Services Authority (NTHSSA) is the single provider of all health and social services in the Northwest Territories (NWT), with the exception of Hay River and Tłı̄ch̄q regions, covering 1.2 million square kilometers and serving approximately 43,000 people, including First Nations, Inuit, Metis, and non-indigenous persons. Health and social services include the full range of primary, secondary and tertiary health services and social services including family services, protection services, care placements, mental health, addictions, and developmental activities, delivered by more than 1,400 health and social services staff.

Under the direction of the Minister of Health and Social Services, the NTHSSA was established to move toward one integrated delivery system as part of the Government of the Northwest Territories (GNWT) transformation strategy. The NTHSSA sets clinical standards, procedures, guidelines and monitoring for the entire Northwest Territories. While the Tłı̄ch̄q Community Services Agency (TCSA) operates under a separate board, and Hay River Health and Social Services Agency (HRHSSA) remains separate in the interim, Service Agreements will be

established with these boards to identify performance requirements and ensure adherence to clinical standards, procedures, guidelines, and policies as established by the NTHSSA.

The NTHSSA is responsible for the effective delivery of regional Public Health and Primary Care services to residents of Fort Smith, Inuvik, and Yellowknife. The NTHSSA provides and supports the delivery of health and social services across the lifespan on an outpatient and outreach basis to enhance healthy communities and well-being through excellence, accountability, and respect for regional diversity, and works with communities to promote healthy lifestyles.

Since 2013, the NWT health and social services (HSS) system has been engaged in a strategic renewal process. This began with System Transformation, a multi-year, community engagement-driven process to develop a model for an integrated health and social services system. The resulting changes to the system's governance structure have enabled a one-system approach, allowing for greater efficiency and integration while better respecting the unique contexts and strengths of the NWT's distinct regions and cultures.

Located in Yellowknife, the Program Assistant reports to the Territorial Director of Public Health and Primary Care and collaborates with the Territorial Director, the Territorial Managers, and the various Territorial Specialists within this team to ensure effective and efficient support in gathering quality indicators, managing mandatory Communicable Disease Audits, supporting in policy development and accreditation standard evaluation. The incumbent acts as a liaison with outside organizations to coordinate information and data collection according to the policies and procedures of the NTHSSA. The incumbent may be required to assist with other activities such the development of reports and policies and the tabulation of indicator reports to support the Regional Chief Operating Officers (COO) in
frontline management.

The Program Assistant is guided by general procedures but must be able to make independent decisions regarding competing priorities such as handling the wide variety of telephone calls, and requests from the team. These include, but are not limited to, making judgments about the nature and urgency of the request and when and whether to consult with other members of the integrated care team. In this interdisciplinary environment the Program Assistant must be organized and have excellent attention to detail, as well as understand the various roles of the Communicable Diseases team (i.e., Physicians, Nurse Practitioners, Community Health Nurse Primary Care, Public Health Nurses.).

The Program Assistant will work closely with the Epidemiology team at Population Health at the Office of the Chief Public Health Office. They may also work with the NTHSSA Territorial Laboratory team in gathering reports and results.

RESPONSIBILITIES

1. Deliver administrative and clerical support to members of the Territorial Public Health and Territorial Primary Care teams and other staff within the Health and Social Services System while maintaining exceptional cultural safety principles.

- Verify and modify client demographic information within the Electronic Medical Record (EMR).
