

## **IDENTIFICATION**

<b>Department</b>	<b>Position Title</b>	
Northwest Territories Health and Social Services Authority	Regional Manager, Materials Management - North	
<b>Position Number</b>	<b>Community</b>	<b>Division/Region</b>
48-4974	Inuvik	Supply Chain and Physician HR Management/Beaufort Delta

## **PURPOSE OF THE POSITION**

The Regional Manager, Materials Management – North (Manager) manages the acquisition, procurement, receiving, storage, and distribution of the Inuvik Regional Hospital (IRH) warehouse, including the protection of materials and supplies of medical supplies and operating room inventories on behalf of the Northwest Territories (NT) Health and Social Services Authority (NTHSSA)/(Authority) for Inuvik Regional Hospital, and the regions of Beaufort Delta and Sahtu. The Manager also supports NTHSSA Headquarters, Dehcho, Fort Smith and Yellowknife regions, the Hay River Health and Social Services Authority (HRHSSA) and Tłı̄chǝ Community Services Agency (TCSA). The majority of materials required are highly specialized medical supplies, pharmaceuticals and vaccines requiring specific expertise and attention to detail. The Manager is also responsible for centralized mail for IRH including sorting and distribution.

The Manager works within a Legislative and Policy framework and carries out its responsibilities in accordance with Government of the Northwest Territories (GNWT) acts, regulations, policies, and departmental procedures including the Financial Administration Act, Contract Regulations, Business Incentive Policy (BIP), Financial Administration Manual (FAM) and other government policies.

This position is responsible for standardizing of supplies in collaboration with others, and for the protection and inventory control of medical and non-medical supplies to ensure that NTHSSA programs and regions have the materials required and available for use within the healthcare system.

The position involves extensive collaboration and cooperation with the program areas and regional management throughout NTHSSA, colleagues within the NTHSSA Finance Branch,

Procurement Shared Services (PSS) and Financial Shared Services (FESS), and with independent stakeholders and vendors. The position is a co-chair for the NTHSSA Supply Standardization Committee.

## **SCOPE**

Northwest Territories Health and Social Services Authority is an independent public agency delivering a full range of health and social services programs and services under the jurisdiction of the Department of Health and Social Services (HSS) to the public. The authority for NTHSSA to exist comes from the Hospital Insurance and Health and Social Services Administration Act (HIHSSA).

The NTHSSA is divided into six regions: Beaufort Delta, Dehcho, Fort Smith, Sahtu, Stanton Territorial Hospital and Yellowknife, with a Chief Operating Officer heading up each region.

Two jurisdictions, Hay River and Tłı̄chǫ within the NT deliver local health and social services independent of NTHSSA. NTHSSA also provides specialized medical services that are not available locally to residents of the Kitikmeot region of Nunavut through agreements with the Government of Nunavut. These arrangements add complexity as the administration and assurance that local services are provided at NTHSSA standards must be established through a collaborative arrangement documented in a Memorandum of Understanding (MoU) between each jurisdiction and the NTHSSA.

The NTHSSA is confronted with significant financial challenges due to substantially rising inflationary costs and constant growth in demand for services while funding sources are not keeping pace. This has resulted in a continual rising of the accumulated debt. This fiscal situation places a great deal of pressure on the Finance Branch to ensure NTHSSA can continue to cover operational needs and at the same time control expenditures as much as possible. In this environment financial sustainability has become a major concern.

NTHSSA is comprised of seven Branches headquartered in Yellowknife. The Branches are Office of the Chief Executive Officer (CEO), Finance; Clinical Integration; Child, Family and Community Wellness; Corporate and Support Service; Regional Operations, and Stanton Territorial Hospital.

Located in Inuvik and reporting to Territorial Director, Supply Chain & Physician Human Resource Management, the Manager oversees the Materials Management – North Unit in the Supply Chain and Physician Human Resource Management Division of the Finance Branch.

## **RESPONSIBILITIES**

### **1. Leads the Materials Management – North unit.**

- Develops and maintains business processes, standard operating procedures and training materials in accordance with GNWT FAA, FAM and procurement guidelines and NTHSSA supply chain objectives and best practices.
- Monitors and manages the IRH Materials Management budget, variance and expenses, including the centralized freight IRH facility.
- Reviews invoices, authorize payments and reconcile expenditures in SAM in accordance with budget manager responsibilities.
- Performs analytics and prepare options papers, recommendations and briefing notes.
- Oversees the training of IRH Materials Management staff in purchasing, receiving and distribution functions.
- Develops, implements, and maintains NTHSSA-specific SAM training for program and regional staff.
- Collaborates and communicates with GNWT and NTHSSA staff.

## **2. Manage the standardization of medical and non-medical supplies across NTHSSA.**

- Co-leads the standardization of products across the NTHSSA including consultation with program and regional subject matter experts (SMEs).
- Determines materials requirements in consultation with appropriate program and regional staff.
- Develops and co-leads an interdisciplinary committee for the standardization of supplies across the NTHSSA, which ensures comprehensive consultation with regional and program stakeholders, such as surgeons, IRH and regional managers, NICs, etc.
- Maintains up-to-date stores catalogues for regional and program staff.
- Assesses and determines bulk purchasing options, including collaborating with colleagues to develop standing offer agreements and pricing agreements for frequently purchased medical and non-medical supplies.
- Coordinates, consolidates, and standardizes inventories across NTHSSA where possible.

## **3. Manage the purchasing and expediting for NTHSSA Beaufort Delta and Sahu regions and IRH.**

- Ensures procurement procedures allow for efficient and effective purchase and availability of medical supplies and pharmaceuticals.
- Oversees the purchasing activities including alignment with GNWT requirements.
- Manages the research and investigation for new and alternative suppliers and recommend possible product substitutions in consultation with SMEs.
- Oversees and manages the regular communication with program and regional staff on the status of orders and other related matters, including providing periodic reports and analysis to support program and service decision making.
- Oversees and manages follow up on outstanding orders and damaged or unacceptable shipments from vendors.

- Oversees and manages the return process from units and health facilities to MM or vendors.
- Ensures documentation for tracking systems and financial records are maintained in accordance with standards.

**4. Manage the warehousing, receiving distribution and inventory storage and protection requirements of the IRH warehouse.**

- Maintains adequate inventory levels to ensure that stock is readily available as required by the programs and regions
- Collaborates with colleagues and provide recommendations on products and volume levels.
- Oversees the inspection and receiving functions, including managing damaged shipments and coordinating replacement products as required.
- Maintains the integrity of the inventory through inventory management best practice, including first-in, first-out processes, regular cycle counts, audits and physical counts
- Manages periodic reviews of inventory levels, expiry dates and damage, and collaborate on investigations of discrepancies and stockouts.
- Ensures proper storage, handling and disposal of products in accordance with product Safety Data Sheets (SDSs).
- Oversees the disposal and write-off of expired, end-of-life or damaged materials.
- Establishes and maintains appropriate security and control of inventory.
- Establishes appropriate access and related restrictions, including oversight of the physical warehouses and appropriate segregation of duties within SAM.
- Ensures that the warehouse is maintained in accordance with applicable Canadian Standards Association (CSA) and Infection Control standards.
- Ensures outgoing lab samples, medical equipment, and other materials are shipped in a timely fashion.
- Ensures all shipments are handled in accordance with applicable Transport Canada requirements, GNWT and NTHSSA policies, and CSA and infection control standards.

**5. Manage IRH mail and courier operations.**

- Ensures incoming and outgoing mail is sorted and distributed appropriately, and internal mail to and from HQ, IRH, Regions, HSS and GNWT is administered properly.
- Ensures proper handling and internal controls are in place to secure mail and protect confidential and sensitive documents and to avoid damage to documents such as lab results, images, etc.

**6. General duties.**

- Supervises and directs Materials Management staff to ensure operational requirements are met.

- Manages Human Resources requirements including hiring and retention and performance management.
- Upholds safe work practices and ensure all staff have necessary mandatory training.
- Upholds and consistently practice personal diversity, inclusion, and cultural awareness, as well as safety and sensitivity approaches in the workplace.
- Prioritizes staff mentorship, on-the-job training and staff development.
- Acts as a team player assisting and supporting Supply Chain and Physician Human Resource Management divisional staff and Finance Branch colleagues.
- Provides advice and support to staff throughout NTHSSA on purchasing, warehousing and distribution.
- Prepares information and documents and/or communicate with third party stakeholders.
- Prepares various briefing materials, analytical and ad hoc reports and decision documents.
- Prepares and presents information and lead training to staff throughout NTHSSA.
- Performs other related duties as assigned.

## **WORKING CONDITIONS**

### **Physical Demands**

In accepting shipments, inspecting and resupplying warehouses, counting inventory, etc, this position is required to regularly be bending, reaching, standing, lifting and walking.

### **Environmental Conditions**

Though required precautions and standards of care decrease potential risk, this position can be exposed to a communicable/infectious disease, blood and body fluid, and hazardous materials such as sharps, needles, toxic cleaning, and sterilizing solution.

### **Sensory Demands**

No unusual demands.

### **Mental Demands**

The need for timely availability of medical supplies and pharmaceuticals is essential and the demand for these supplies and volume of usage can be very unpredictable.

## **KNOWLEDGE, SKILLS AND ABILITIES**

- Knowledge of supply chain including; transportation, warehousing and storage, inventory control, asset management, logistics, and disposal.

- Knowledge of supply chain best practice and GNWT legislation, policies, and procedures as they relate to inventory and asset management and contract requirements.
- Knowledgeable of northern procurement issues; sensitive to the northern political and socio-economic environment.
- Knowledge of infection control regulations and CSA standards in relation to the purchasing, storage, and distribution of medical supplies.
- Supervisory and management skills including the ability to assign work and motivate others to maximize productivity.
- Skills in all Microsoft software and other enterprise resourcing planning (ERP) software.
- Problem solving and analytical skills, including the skills and abilities to manage multi-faceted issues on a wide range of supply chain management disciplines.
- Skills in critical thinking and decision-making.
- Communications skills (written and verbal) and interpersonal skills, including the ability to maintain professional communications.
- Organizational and time management skills, including the ability to plan, coordinate, prioritize and meet deadlines.
- Customer service and interpersonal relations skills including an ability to understand and explain supply chain and financial concepts in laypersons' terms.
- Ability to interpret, analyze and prepare warehousing, receiving, distribution and inventory discrepancy reports.
- Ability to work within and respond effectively to competing and frequently changing priorities, with a broad understanding of organizational needs.
- Ability to interpret and assess risk management, financial and supply chain policy documents.
- Ability to design and develop supply chain policies, business processes, procedures and training.
- Ability to manage conflict and difficult conversations.
- A professional designation in Supply Chain Management Purchasing (SCMP), and experience in the public sector especially in public health or the health care private sector supplier field (e.g. major health care equipment of pharmaceuticals) would all be considered as assets.
- Ability to commit to actively upholding and consistently practicing personal diversity, inclusion, and cultural awareness, as well as safety and sensitivity approaches in the workplace.

**Typically, the above qualifications would be attained by:**

A degree in a business-related field or a relevant professional designation, along with coursework or professional development in warehousing or logistics and five years of progressive experience in the supply chain field, and three years of supervisory experience.

Equivalent combinations of education and experience will be considered.
