

IDENTIFICATION

Department		Position Title	
Northwest Territorial Health and Social Services Authority		Health Information Professional	
Position Number	Community	Division/Region	
48-5401	Yellowknife	Health Records / Stanton Territorial Hospital	

PURPOSE OF THE POSITION

The Health Information Professional ensures that personal health information is available, accurate and complete for healthcare providers, and is responsible for the confidentiality of personal health information including any authorized or unauthorized disclosure of health information which may pose a threat to the Northwest Territories Health and Social Services Authority. As well, this position is responsible for data integrity which includes maintaining and assuring the accuracy and consistency of health information over the entire life-cycle of a patient's medical history.

SCOPE

The Northwest Territories Health and Social Services Authority (NTHSSA) is the single provider of all health and social services in the Northwest Territories (NWT), with the exception of Hay River and Tłı̨chʼı̨ regions, covering 1.2 million square kilometers and serving approximately 43,000 people, including First Nations, Inuit, Metis, and non-aboriginals. Health and social services includes the full range of primary, secondary and tertiary health services and social services including family services, protection services, care placements, mental health, addictions, and developmental activities, delivered by more than 1,400 health and social services staff.

While the Tłı̨chʼı̨ Community Services Agency (TCSA) will operate under a separate board and Hay River Health and Social Services Agency (HRHSSA) will in the interim, the NTHSSA will set clinical standards, procedures, guidelines and monitoring for the entire Northwest Territories. Service Agreements will be established with these boards to identify performance requirements and adherence to clinical standards, procedures, guidelines and policies as established by the NTHSSA.

Stanton is an accredited facility, located in Yellowknife, and is the referral center for approximately 43,000 NWT residents and 5,900 residents from the Kitikmeot Region of Nunavut. Stanton provides health care services to adults and children on an inpatient/outpatient and outreach basis in order to restore health with dignity. Stanton maintains a tobacco free environment within the building and throughout the property, recognizing the health hazards associated with tobacco in the workplace, both to smokers and non-smokers alike.

Located in Yellowknife, the Health Information Professional reports to the Territorial Manager, Health Records, and is responsible for accurate and timely maintenance of Health Records/personal health information, and for providing health record services in a manner consistent with Government of the Northwest Territories (GNWT) legislation for both paper and electronic records.

The position will be an expert reference for technical information and operational support for health information and health information management, and will be responsible for coding and abstracting inpatient, day surgery, emergency and outpatient records, as well as maintaining the Med2020 reporting system.

Accurate ICD-10-CA and abstracting is imperative as the information collected is used for Stanton Territorial hospital statistics, funding as well as reported nationally to Canadian Institute for Health Information (CIHI). CIHI returns statistical health information to originating hospitals and also releases health information reports to the public based on the ICD-10-CA coding.

The Health Information Professional performs both qualitative and quantitative analysis for all hospital discharges and responds to *Access to Information and Protections of Privacy (ATIPP) Act*, requests. This position is accountable for ensuring that timely information requests and responses are prepared according to Territorial information and privacy legislation.

The Health Information Professional is responsible for record security, data integrity and record completion in compliance with organizational policies and deadlines, medical bylaws, and policies. This individual is privy to detailed confidential personal health information and will comply with GNWT privacy legislation.

The incumbent will be required to perform complex tasks requiring intense concentration while simultaneously being mentally prepared for regular interruptions. Concentration may be affected by interruptions and may impact work. The incumbent is faced with tight deadlines and job priorities are frequently challenged by new priorities.

The incumbent will comply with all NWT Acts and regulations and Accreditation Canada's standards required for organizational practices.
