The Support Assistant is responsible for assisting with instruction and providing support and encouragement to students diagnosed with exceptional needs and/or who are identified as needing additional services and resources. Operating under the *Education Act* and the policies and procedures established by the district, region and school, this position exists to ensure all students have the opportunity for a successful and meaningful learning experience.

Located in Whati, the Support Assistant (SA) reports to the Vice Principal and takes direction from the Program Support Teacher and/or Classroom Teachers. This position is responsible for assisting with implementing specialized and modified learning and education activities in order to provide a positive learning experience for students with diverse and complex needs. The Support Assistant works with designated students either individually or in small groups to provide academic assistance, and may work in the classroom or in other areas of the school. SAs work with students who require additional assistance and support and who do not generally achieve the same level of success in the classroom as other students. Many of these students have diverse/complex needs and may not react in a typical manner.

This position assists teachers and students by implementing techniques and strategies, and monitoring and reporting progress to the teacher to ensure that individual needs of students are met.
