

# PRIVACY IMPACT ASSESSMENT FINAL APPROVAL

## SIGNATORY AND APPROVAL OF HEAD

---

Under the ATIPP Act during the development of a **proposed enactment, system, project, program or service** that involves the collection, use or disclosure of personal information, a public body must prepare and submit a privacy impact assessment to the head of the public body for review and comment.

Under the ATIPP Act with respect to a **common or integrated program or service**, during the development of the proposed program or service, a public body must prepare and submit a privacy impact assessment to the Information and Privacy Commissioner for review and comment. The head of a public body must also **notify the IPC** of a common or integrated program or service at an early stage of developing the program or service.

Collectively Privacy Impact Assessment Modules 1, 2 and 3, properly completed, serve as sufficient evidence of a privacy impact assessment. The signature below indicates that the privacy impact assessment has been reviewed and approved by the head of the public body. Attach all supporting information for future reference, review and verification to these three documents.
