## Glossary

<b>Kiosk</b>	The self-service part of the ScheduleSoft system through which employees can view their schedule by the week or month, view the schedule of all the employees on their unit by the week, indicate their availability/unavailability, apply for vacation leave and view the status of that vacation request (pending, approved or denied). They can also receive information from the scheduler via the Kiosk messages.
<b>Leave</b>	Absence from work with the employer's approval. The leaves listed on the Schedule Editor's drop down menu that the GNWT will use are vacation, sick and special leave. Leave (and overtime) hours will have to be entered manually by the employee on PeopleSoft.
<b>Reports</b>	Area that contains a list of many configurable reports available for generation, viewing and/or printing. Some of the more common ones we anticipate will be used by the GNWT are the Day Jobs Statistics, Schedule Export report, Bid Line report and Overtime report.
